

About the positive factory inspection of the manufacturing plant on 08.08.2013 based on the testing and certification regulation of **SGS TÜV Saar GmbH**, for the product(s), certified by **SGS TÜV Saar GmbH**, a flawless and constant quality is secured by the quality assurance procedure, performed and documented during the manufacturing process.

License Holder:

Schneider Electric Solar Inverter USA, Inc.
250 South Vasco Road
Livermore CA
94551

Manufacturing place:

215200, No. 1688, Jiangxing East Road,
Wujiang Economic Development Zone
Wujiang City, Jiangsu Province, P.R.C.

The main production steps are taking place in the above listed plant:

- Project
- Assemblage
- Measuring and Testing

Models:

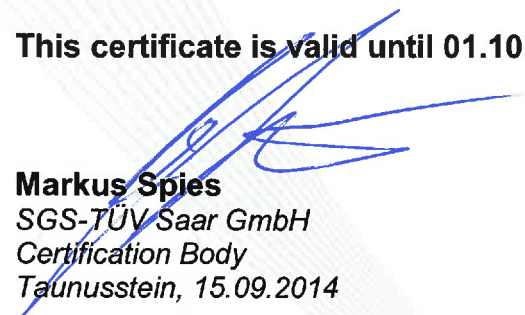

**Conext RL 3000E, Conext RL 4000E, Conext RL 5000E,
Conext RL 3000E-S, Conext RL 4000E-S, Conext RL 5000E-S,
Conext TL 8000E, Conext TL 10000E, Conext TL 15000E,
Conext TL 20000E**

Report number: SHES140600259001 // CTS13_2718965

The factory inspection of the manufacturing place was conducted according to the stipulation of SGS TÜV Saar GmbH. The manufacturing plant is under a periodic factory surveillance programme which is documented in the factory inspection report.

Manufacturing process and components have been verified in order to guarantee a constant quality level as the one used for type test for compliance to CEI 0-21 for LV connection and CEI 0-16 (or annex A70) for MV/HV connection. The check has been performed based a detailed description of the production process and of the materials defined by the manufacturer.

This certificate is valid until 01.10.2015.
