

REACH Restricted Substance Declaration of Compliance

As per the duties defined in article 33 of the REACH regulation N° 1907/2006, you will find attached below our best information regarding the presence of Substances of Very High Concern (called below SVHC) in the products of Schneider Electric.

The information below represents our best knowledge relative to the presence of SVHCs in our products as of the date of publication of this information. This information will evolve over time, as a function of the improved knowledge resulting from both additional information provided by our suppliers and our own investigations. In the context of the sustainable development policy of our Group, we continuously work towards products and services which reduce the impact to the environment or human health when used for their intended purpose and in conditions stated in the documentation provided by Schneider Electric.

At end of life, we recommend that you follow appropriate waste and recycling procedures.

Please Note: You can find more information about Schneider Electric environmental commitment on www.schneider-electric.com

Meets requirements – Not Used
