Certificate of compliance

Applicant: Xantrex Technology Inc.
161-G South Vasco Road Livermore
California 94551
USA

Product: Automatic disconnection device between a generator
and the public low-voltage grid

Model: Conext TL 20000 E, Conext TL 15000 E

Use in accordance with regulations:

Automatic disconnection device with three-phase mains surveillance in accordance with Engineering Recommendation G59/2 for photovoltaic systems with a three-phase parallel coupling via an inverter in the public mains supply. The automatic disconnection device is an integral part of the aforementioned inverter. This serves as a replacement for the disconnection device with isolating function that can access the distribution network provider at any time.

Applied rules and standards :

DIN V VDE V 0126-1-1:2006-02 (Redundancy) and Engineering Recommendation G59/2: The default values for "Small Power Stations" on the low-voltage grid were verified.

The safety concept of an aforementioned representative product corresponds at the time of issue of this certificate of valid safety specifications for the specified use in accordance with regulations.

Report number: 11TH0291-G59/2
Certificate nummer: U11-926
Date of issue: 2011-10-12 **Valid until:** 2014-10-11
